

SECOND YEAR - SECTION B

DESTHINY T. DUMAGAN

BACHELOR OF SCIENCE IN INFORMATION
TECHNOLOGY

Hometown

I grew up in Pantukan, Compostela Valley, now called Davao de Oro. The place has many beach resorts and is rapidly developing, finally moving beyond its long stagnant phase.

Hobbies

In my free time, I enjoy watching anime, playing Dota 2, and listening to music with no particular genre—I like what I like. I also love exercising.

Interests

I am passionate about programming, especially web and application development. Aside from my academic requirements, I also spend my free time learning more about it.

Values

I believe in being kind to myself, always striving to tell the truth, and dedicating myself to learning one particular field of interest.

Explore My Background and Interests

Skills & Career Goals

Technical Proficiency in Programming

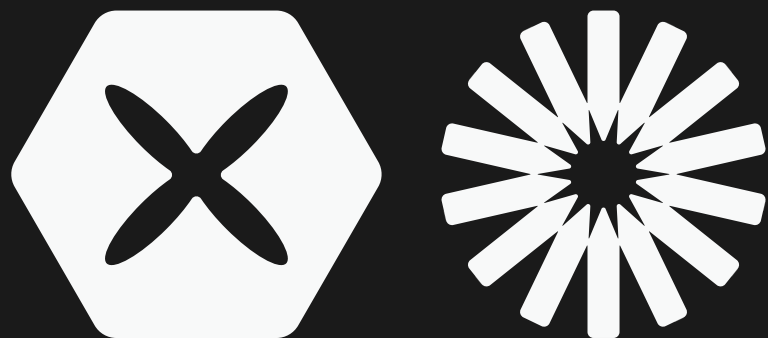

I am proficient in JavaScript and C#, which I use to build efficient and practical solutions, especially in web and application development.

Strong Dedication to Learning

As an IT student, I continuously practice and improve my skills beyond academic requirements, often exploring concepts independently.

Short-Term Goal: Develop a Full-Stack website

My goal is to design, deploy, and maintain high-quality, scalable full-stack websites to strengthen my portfolio in the coming years.

Thank you for your attention!
