

Time Management

KEY INSIGHTS

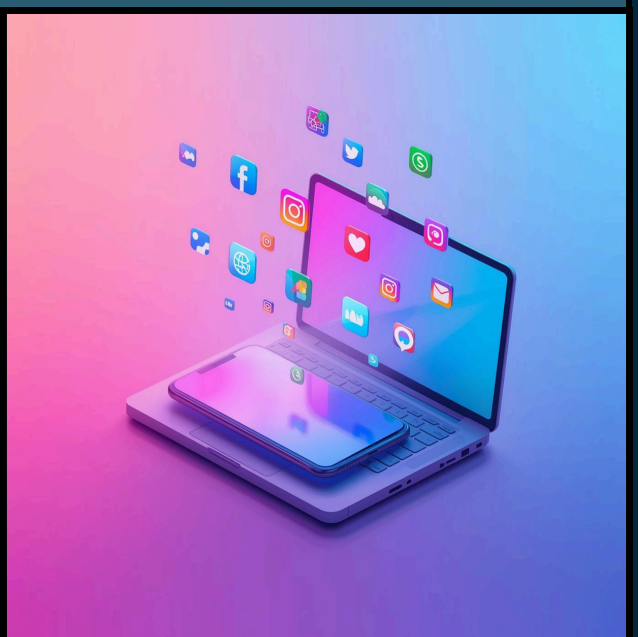

Understanding how we spend our time online is crucial for improving productivity and self-awareness. Here are some essential insights into productivity challenges.

THE CHALLENGE OF MISJUDGMENT

52% of users misjudge their most used app, often off by an astonishing **14 hours per week**.

Attention spans have been drastically reduced from **2.5 minutes** in 2004 to just **47 seconds** in recent years.

Users often overestimate their work hours by **5-10%**, leading to reduced productivity and poor self-awareness.
